The High School Experience

Our Classic High School Programme offers a wonderful way to explore everyday life in the United Kingdom or Ireland. Living with a carefully selected host family and attending the local school alongside local students, students have access to all school types in the British and Irish state school systems, including a wide choice of course and subject options.

Carefully selected placements

Placements are handled by our dedicated admissions and placement teams to match the individual profile of each student with the best possible placement. Our expert team will secure a place at a state school and match the applicant with a selected host family, who is carefully chosen and vetted, taking great care to secure the best option available.

Best possible school

Our team will always choose the best possible school for the student based on their interests and preferences. Our programmes offer our students the chance to study alongside their local counterparts with a wide range of subjects and courses as well as extracurricular options available, and if a student has particular requirements, not met in the state sector, we also work with selected private schools.

Welcoming host family

Carefully selected, our host families look forward to welcoming an international student into their home as a valued new family member. Our host families give our students the opportunity to experience the British culture, fully immerse themselves in the community and make the most of their stay.

Support throughout

Our dedicated Local Support Coordinators will assist the students throughout their stay with local support, social activities and regular contact. Progress reports as well as local events, excursions and an optional tour programme are also part of the service we offer. We pride ourselves in ensuring that our students receive the very best care and support throughout their stay.

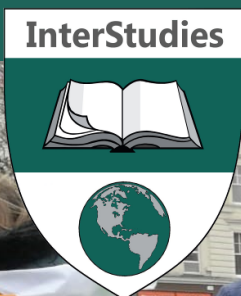

Welcome Camp included!

Students enjoy a 3-day Welcome Camp at the start of their programme, giving them cultural advice, sightseeing, shopping options and dinner in Dublin, Edinburgh or London (depending on their final destination) as well as a wonderful opportunity to meet other students and make friends for life.
